Clean Ohio Conservation Fund

To whom it concerns,

The Ohio City Bicycle Co-op is pleased to support the application of the Cleveland Rowing Foundation in seeking a Clean Ohio Conservation Fund Grant with assistance from the Trust for Public Land. Their acquisition of property near our existing facility on the Flats offers very attractive opportunities for partnership between our two organizations, with clear synergies and economies of scale possible.

I welcome your communications if you desire additional information about the tentative plans we have discussed to benefit our memberships, and the broader community through a relationship that this grant would help make possible.

Please do not hesitate to contact me at any time regarding this application.

Sincerely,

Jim Sheehan
Director
